RULING PLANET

Mercury · **Born on 5, 14, 23**

CORE SELF

You carry a childlike energy and aura, enjoy little moments, and find happiness in making others smile and being entertained. Highly adaptable — you adjust to any situation with ease and behave as people expect (childlike with a child, mature when required), a versatility others appreciate. Good-looking, attractive, and youthful-looking, which draws people to you.

STRENGTHS

A great communicator with exemplary, convincing oratory skills and a charming personality — you can run a successful business, aided by risk-taking ability. Your mind is always exploring new ways and sources of earning and investing money. A lifelong, inquisitive learner. Highly intuitive — you can sense others' true intentions (meditation sharpens this further). Mulank 5 natives often have **multiple sources of income** and crave diversity, disliking monotony.

FAVOURABLE PERIODS

Most favourable: **May, August, and September** — prosperous for new ventures, jobs, plans, goals, and property purchases/investments; you feel rejuvenated and energetic.

RULING PLANET

Mars (energy and passion)

LIFE PURPOSE & PERSONALITY

In numerology 9 is a **magical number** — multiply 9 by anything and the digits of the result reduce back to 9 (9 × 4 = 36 → 3+6 = 9). As such it **magnifies the importance of the Psychic Number**; if the Psychic Number is not friendly with it, complications can follow. Being ruled by energy, DN 9 people are **very energetic and exuberant**; when that energy isn't channelled they turn jittery and restless — so much so that too much rest actually makes them restless. Channelled through physical or mental activity or meditation, they work at their best and productivity becomes natural. Their **inner voice** is their finest asset, growing more reliable with spiritual practice and seldom failing them.

STRENGTHS

Humanitarian to the core — they go to great lengths to help others and take great pleasure in it; typically nature and animal lovers; knowledge lovers who gather learning from many fields. Natural **teachers**, and potentially exemplary **spiritual teachers** who remain lifelong students of spirituality. Straightforward and emphatic — a trait others may not appreciate but which, in later years, helps keep only true people around. Creative, with a **vivid imagination**.

RELATIONSHIPS (ALL-OR-NOTHING)

Mars makes them intensely passionate; they fall into one of two extremes:

If a partner gives a hundred percent, they return **twice or thrice** — limitless, movie-like devotion.

If cheated on or disrespected, the first instinct is **revenge**, however small the slight — despite being generally forgiving, in romance they want to be "either zero or a hundred."

AT ITS BEST

DN 9 has produced great **philanthropists, humanitarians and artists** — using its positive attributes to their full potential is the invitation.
